EGI SEPTIAN

SOFTWARE TESTER

PERSONAL PROFILE

I am a Software Tester specialist with holistic knowledge of software testing and scenarios test plan design. I am also experienced in coordinating with stakeholders.

WORK EXPERIENCE

SENIOR SOFTWARE TESTER (SENIOR QA)
PT. Sigma Cipta Caraka | Apr 2016 - present

- Design test plans that reflect all business requirements of the application and provide coverage of both positive and negative paths.
- Conduct day-to-day project coordination and support the preparation of procedures, processes and quality improvements.
- Execute test scripts, escalate roadblocks, and prioritize defects in order to minimize defects shipped to client or production environments.
- Identifying issues, risks and benefits of existing and proposed solutions and outlining application impacts.
- Gathering, validating and documenting business requirements.
- Supporting the UAT processes with both client and project teams.

IT QUALITY CONTROL (IT QC)
PT. Astra Credit Company (ACC) 2015 - 2016

- Design test plans, scenarios, scripts, or procedures.
- Document software defects, using a bug tracking. system, and report defects to software developers.
- Identify, analyze, and document problems with program function, output, online screen, or content.
- Participate in product design reviews to provide input on functional requirements, product designs, schedules, or potential problems.
- Document test procedures to ensure replicability and compliance with standards.
- Plan test schedules or strategies in accordance with project scope or delivery dates.
